# PAINT

Gouache in 500ml pots

Suitable for working on a vertical surface, this gouache is highly pigmented, covering and stable. It has the advantage of drying quickly on the paper. It keeps perfectly well in pots with screw-on lids. Its 18 colours form an extensive range, from which an infinite number of shades can be created. Using a knife, remove about a tablespoon's worth of paint from the pot and place it in the corresponding cup on the Table Palette, without diluting it.

Arno Stern paints are made from potato starch and contain no harmful substances.

To avoid mould, do not expose the colours to contact with food products. Never put the paint from the cups back into the pots. After the session, cover the cups with cold water. Suck it up with the syringe before the next session.

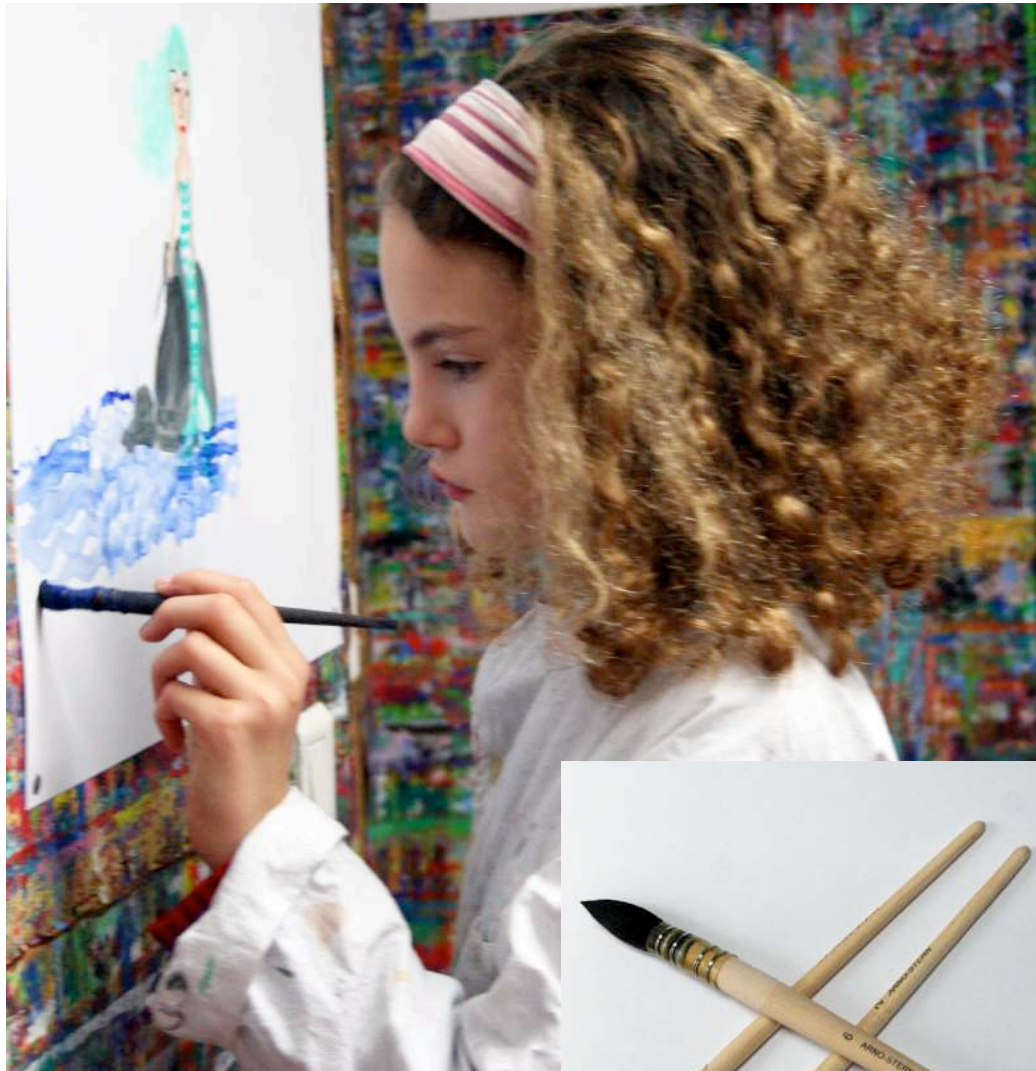

## The 18 colours of the Table-Palette:

001 White	007 Emerald green	013 Orange
002 Pink	008 White green	014 Vermilion red
003 Violet	009 Yellow green	015 Carmine red
004 Light blue	010 Yellow	016 Sienna earth
005 Grey	011 Ochre	017 Umber brown
006 Ultramarine blue	012 Beige	018 Black

Additional colour: 019 medium blue

# PAINTBRUSHES

**P:** The brushes, with their petit-gris bristles attached to a light wooden handle by a real feather sleeve, are handcrafted with extreme care. They meet all the requirements of the Arno Stern Play of Painting. Their tip makes it easy to draw fine lines and they retain a lot of water and paint.

**V:** The vegan brushes have been specially designed to be of virtually equivalent quality (the bristles on the tip do not spread).

On the Table-Palette's brushholders: 2 No.2 brushes side by side, and 1 No. 6 brush on top, for each of the 18 colors. Used under the Play Of Painting's conditions, they have a lifespan of several years.

Brush composition: petit-gris (Siberia), feather (Romania or Hungary), wood (Scandinavia)

Composition of Vegan brushes: Arno Stern special fiber, plastic ferrule, Scandinavian wood.

Never wash brushes in hot water. Never use detergent or soap.

# PINS

Our thumbtacks have a fine 10mm-long stem (compared with 7mm for ordinary thumbtacks), designed to penetrate deep into the wallcovering without making a large crater.  
Packs of 1000 tacks.

At one end of the Table-Palette, on the outside of one of its legs, there's a small compartment for tacks, where anyone can easily pick them up. To secure the sheet to the wall, push pins into the 4 corners and the middle of the length.
